1. HOME

Cordelia Smythe Murder Mysteries are written with attention to historical figures, places and events. Most are set in specific time periods, and include a short history of the era. The hostess booklet also contains a party planning guide along with fashion and menu ideas.

If you have never participated in a Murder Mystery Game, no worries-- your Character Booklet includes all of the information necessary for you to play the game. Miss Smythe's games are not scripted, however, for the event you will take on the persona of an entirely different person. You will be provided with details of your past, including secrets to protect, alliances to forge and goals to achieve.

Most parties will take from two to three hours to complete.

3. EVENTS

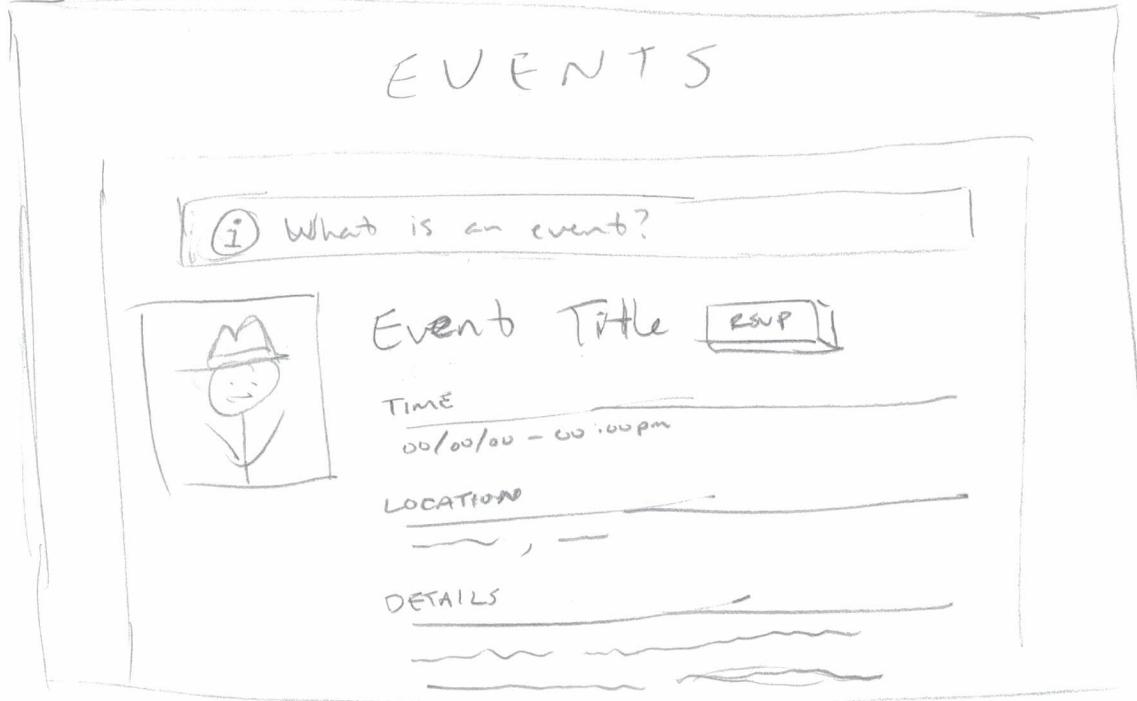

• MAKE EACH "EVENT" LOOK
LIKE A PARTY INVITE

→ WHAT TO EXPECT AT AN EVENT
→ "READ MORE" BUTTON, IF
NECESSARY

3. EVENTS continued

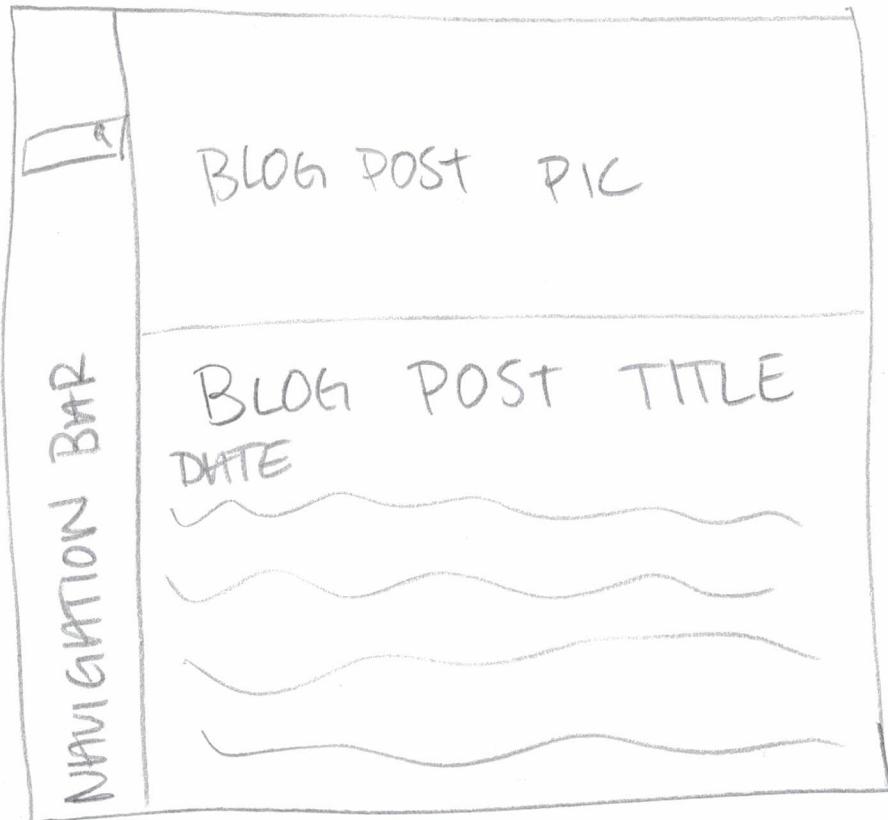

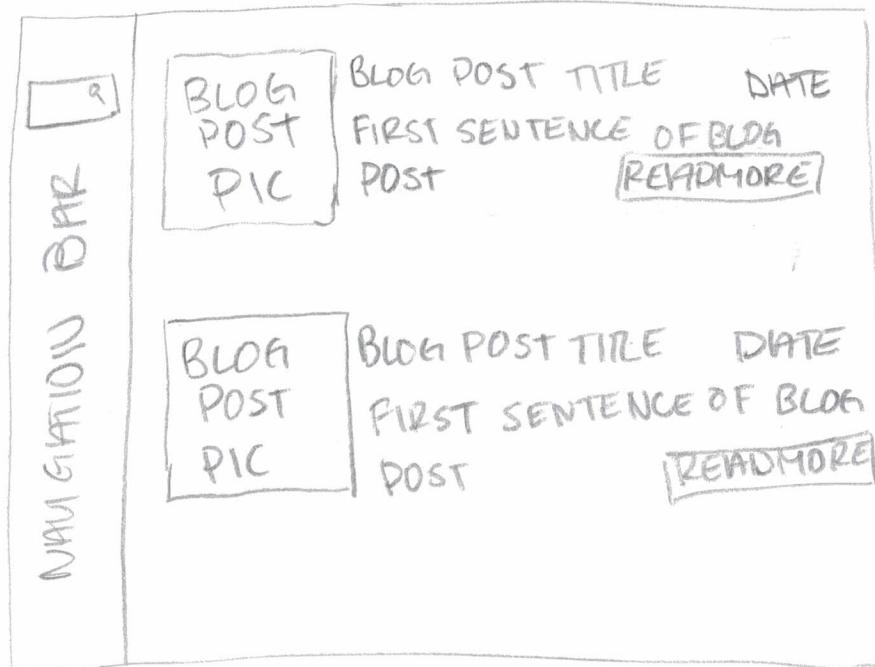

Event page mockup - B

The current event page is sparse and difficult to use for discovering information about upcoming events. It also lacks information for what events are in general. I propose the following:

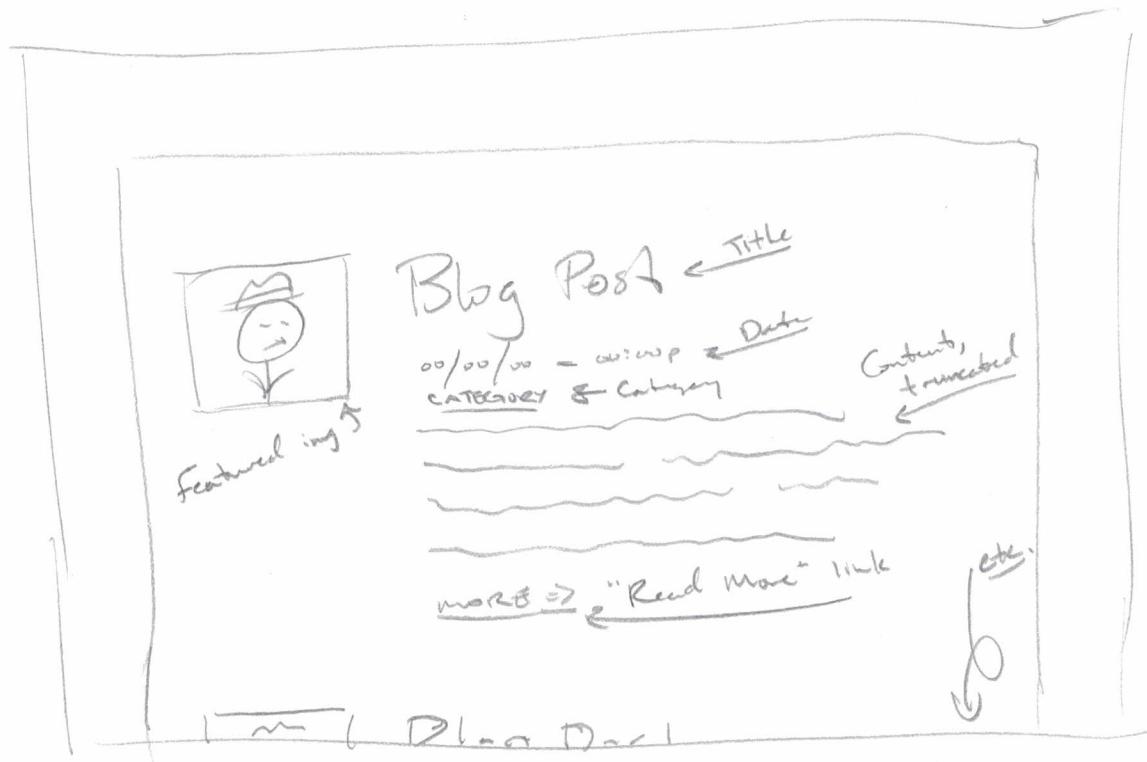

- At the top of the 'Events' page should be a tooltip/link to explain the purpose of events, why a customer should be interested, and what to expect, should they attend.
- Each event include a large, clear heading/title, followed by sections for the time, location, and details.
- Some form of actionable button/link (i.e. "RSVP!") should be prominently displayed.
